APPLICABILITY:

This schedule is offered to industrial and commercial customers having demands of 1000 kilowatts or greater in any month during the previous twelve (12) months. Customer’s delivery voltage must equal or exceed 12,000 volts.

TERRITORY SERVED:

The entire area within the Merced Irrigation District service boundary as distribution lines and capacity are developed and declared available by the District.

MONTHLY RATES:

The sum of the following Customer, Demand and Energy Charges including applicable adjustment for Power Factor, which are effective on the date of meter reading for each account.

<table>
<thead>
<tr>
<th>CUSTOMER BILLING</th>
<th>PER METER PER MONTH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Customer Charge per month or portion thereof</td>
<td>$1,535.00</td>
</tr>
<tr>
<td>Demand Charge:</td>
<td></td>
</tr>
<tr>
<td>Per kilowatt (winter)</td>
<td>$9.50</td>
</tr>
<tr>
<td>Per kilowatt (summer)</td>
<td>$23.00</td>
</tr>
<tr>
<td>Energy Charge:</td>
<td></td>
</tr>
<tr>
<td>Per kilowatt hour</td>
<td>$0.0658</td>
</tr>
</tbody>
</table>

Mandated Charges (PBP & Local Government Permits & Fees do not exceed 5.35%).

Power Factor Correction:

If the average power factor is below 85%, the sum of the Demand and Energy Charges will be increased by 0.06% for each percentage point below 85%, through a Power Factor Correction Charge.

MINIMUM CHARGE:

The minimum charge for each month or portion thereof shall be the Customer Charge.

NEW CUSTOMER:

Based on customer provided data and the opinion of the District, the customer will be placed on an appropriate rate schedule.
SPECIAL CONDITIONS:

1. For customers changing schedules between billing dates, the schedule in effect at the time of the end of the normal billing period will be used to compute the bill.

2. Where service is supplied through new electric facilities provided by the District, the electric service supplied shall be in accordance with a contract authorized by the District's Board of Directors.

3. Any customer who re-applies for service within 12 months of canceling that same service must pay, before the new service will be provided, the total Charges that would have otherwise been payable between the prior cancellation date and the new service date.

4. The Demand Charge and Power Factor Charge shall be prorated on opening and closing bills where the billing period is greater or less than the average 30-day period.

5. The maximum demand in any month will be the maximum kW delivery metered during any 15-minute interval in the month. The billing demand used in computing the Demand Charge will be the maximum demand for the current month.

6. The availability of metering equipment may dictate time required to begin service under this schedule.

7. No Customer Charge, Minimum Charge, Energy Charge, (Demand Charge, Power Factor Charge) or any other Charge shall be payable if the customer ceases to have any electric service requirements at the location designated in the customer's Agreement to Provide Electric Services.

8. Mandated Charges: Public Benefits Program (PBP) is mandated by the State of California to provide services to low-income customers and to promote energy conservation and renewable energy sources. This fee is set at the existing rate of the Investor Owned Utilities, presently at 2.85%. Local Government Permits and Fees vary, but do not exceed 2.5%.

9. Seasonal Charges: The summer season is May 1 through October 31 and the winter season is November 1 through April 30.

Effective 05/01/20
